### **Restrictions**

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-23 and 34-39, drawn to packet processing, classified in class 709, subclass 236.

II. Claims 24-33, drawn to specific network interface, classified in class 709, subclass 250.

The inventions are distinct, each from the other because of the following reasons: Inventions I and II are related as combination and subcombinations. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP 806.05(c)). In the instant case, the combination I as claimed do not require the particulars of the subcombination II as claimed because conventional clock generator can be used in the packet processor. The subcombination II has separate utility such as use of multiple clock sources for different components.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the technological complex art, examination of all inventions would impose serious

burden to the examiner. Accordingly, restriction for examination purposes as indicated is proper.

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (see 37 CFR 1.143).

3. Applicant is reminded of proper format of an abstract of the disclosure that should contain a single paragraph. The current abstract comprises two paragraphs. Correction is required.

Applicant is also requested to provide serial number for related copending application cited in page 1 of the specification.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Viet Vu whose telephone number is 571-272-3977. The examiner can normally be reached on Monday through Friday from 7:00am to 4:00pm. The Group general information number is 571-272-2100. The Group fax number is 571-273-8300.
